Most people think of **Harry Bondi** as **America's best football handicapper** and he proved that again in 2016 with another **hugely profitable year**. Bondi is once again **hammering Las Vegas** with a **79-45 run (65%)** that has made a **\$100** per unit better **\$8,990!**

One sport Harry is not good at handicapping is baseball and that is why he hired the **best baseball handicapper** in the nation, **Frank Drake**, eight years ago and in 2017 Frank has again racked up **HUGE Cash Profits** for all **Baseball "Steam Team"** members.

Steph Curry is ready to lead the Warriors back to the NBA Finals.

So, should YOU join basketball or baseball? The answer is BOTH and to make it affordable for everyone to join and win Harry is offering all our **bookie busting Baseball & NBA Playoff picks** for the month of May for just **\$500**. That's the entire month of May

HARRY'S COLLEGE SPRING FOOTBALL NOTES

Despite the loss of eight players who were drafted, Alabama will be the consensus preseason No. 1 college football team, which speaks volumes for the way the coaching staff has recruited and developed talent. Head coach **Nick Saban** confided to friends at dinner the night before the Alabama spring game April 22 that he will "never get over" the last second loss to Clemson in last year's National Championship Game, calling it the toughest loss of his career. He also said Alabama's loss to Ohio State in the 2014 Sugar Bowl BCS Playoff game was the second worst loss and losing to Auburn on the miracle returned missed field goal in the 2013 Iron Bowl his third worst loss and one that continues to "eat at me."

On the positive side for Alabama, for the first time since 2013 they will have a returning starter at quarterback. Sophomore **Jalen Hurts** looked more polished in the spring game, wideout **Calvin Ridely** looked like he is ready to have a big 2017 after a quiet, nondescript 2016 season and running back **Bo Scarbrough**, who broke his leg in the national championship game and did not play in the spring game, looked fit and said he will be 100% for fall camp. The offensive line, even with the loss of **Cam Robinson**, is loaded and the defense, which lost a lot of important pieces, has been rebuilt with 4 and 5 star recruits. One of the most amazing stats in college football is that Alabama has been favored in 97 of their last 98 games, they were a 1 point underdog at Georgia in 2015 and crushed the Bulldogs 38-10, and we have them favored in all 12 games in 2016.

Southern Cal faces Alabama Sept. 3 at Cowboys Stadium to kick off the season and Quarterback **Sam Darnold**, fresh off his 453-yard, five-touchdown performance against Penn State in the Rose Bowl and a 5 TD performance in the Trojans spring game, already looks ready! Running back **Ronald Jones**, coming off a 1,000-yard season, is the latest in a long line of superstar running backs for the Trojans who are also loaded at wide receiver.

USC has superb athletes on defense as well, particularly at linebacker and in the secondary. Southern Cal closed last season with nine straight wins and was playing as well as any team in the country. We are already counting down the days to their clash with the Tide in September.

Harry's pre-season "Coaches on the Hot Seat" column is a favorite of our fans and the media alike. Over the last 8 years, **80% of our Coaches on the Hot Seat have been fired**, as we predicted. This year there are more high profile head coaches on the hot seat than ever before. **Brian Kelly** at Notre Dame, **Jim Mora** at UCLA, **Kevin Sumlin** at Texas A&M, **Bret Bielema** at Arkansas, **Butch Jones** at Tennessee and **Kliff Kingsbury** at Texas Tech need to win next year to remain employed. Kelly, coming off a four-win season in South Bend, is certainly at the top of the list. Harry's entire list will be released in July. Stay tuned!

A number of new head coaches in college football will bear watching early as well. **Jeff Brohm** was an amazing 30-10 at Western Kentucky

before agreeing to be Purdue's new head man. Spring practice allowed Brohm, whose offense at WKU lead the country in scoring in 2016, the opportunity to see what he inherited on the Boiler-maker's roster and he was not impressed. Brohm told insiders that his offense is lacking play-makers and he is considering position shifts for several players including last leading rusher **Markell Jones** from running back to slot receiver. With a poor offensive line and suspect defense, it's going to take Brohm time to turn it around in West Lafayette, but we do expect him to get the job done. **Tom Herman** moves from Houston to Austin where he inherits a great situation at Texas. The Longhorns return 17 starters and while the powers that be at Texas never made **Charlie Strong** feel comfortable, Herman won't have that problem. Texas does lose 2,000-yard rusher **D'onta Foreman** and face a tough road

schedule.

Speaking of Strong, he will redeem himself at South Florida. He is a very good recruiter and has developed strong ties in the Sunshine State after spending seven years as Florida's top recruiter from 2003-2009. He was 37-15 as Louisville's head coach before the disaster at Texas and will be allowed to do things his way at USF. Most importantly, the Bulls are loaded! QB **Quinton Flowers** is one of the most exciting players in the country, the defense will be stout the schedule is manageable.

Finally, **PJ Fleck's** move to the big time will be interesting. His motivational techniques worked at Central Michigan but will they transfer to Minnesota? Fleck's teams at Central Michigan got better and better every year and he can recruit.

Jim Harbaugh has spent most of the offseason thinking of ways to piss off the NCAA and came up with a great one. When the Michigan head coach learned that the NCAA banned all off-campus practices after Harbaugh brought the Wolverines to Florida for spring break/spring practice in 2016, he immediately booked this year's spring break in Rome, ahead of the ban which takes effect August 1.

That's right, Michigan's spring practices were in Italy! Not a bad recruiting tool for a college kid. Back in the U.S., Harbaugh has his work cut out for him as the Wolves entire defense was gutted by graduation and the offense lost its top three receivers, its best RB and most of the offensive line.

Breakout players to watch this fall include **Jarrett Stidham**, a 5-star quarterback in the recruiting class of 2015, who got off to a great start at Baylor before suffering an injury as a freshman and transferring to Auburn. He is eligible this fall and will be the Tiger's starter, stealing the job from two-year starter **Sean White**.

Stidham has an incredible arm which was on display at the Auburn spring game where he threw was 16-of-20 for 267 yards and a rushing touchdown. Stidham completed four passes of 30-plus yards. That kind of downfield passing attack has not been seen on the Plains by Auburn fans since **Nick Marshall** and **Sammie Coates** departed in 2014.

Devin Duvernay might be the fastest and will be one of the most feared wide receivers in the nation. He finished with 412 receiving yards as a true freshman at Texas last year and with the installation of **Tom Herman's** fast-break offense and an improved **Shane Buechele** at quarterback, Duvernay will light up the scoreboard this fall.

Oklahoma State will have one of the best QB, RB and WR combinations in the nation. **Justice Hill** ran for 1,100 yards last year as a true freshman and that was while being part of a three-man rotation with now graduated seniors **Chris Carson** and **Rennie Childs**. He will be the lead back for the Cowboys this fall and will team with quarterback **Mason Rudolph** and wideout **James Washington** to form one of college football's most electric trios.

Harry's renowned "Go With" and "Go Against" college football teams will be released in the summer edition of the Bondi Bulletin and have made our clients a fortune over the last eight years. With Oklahoma State having its best defense in years to go with an excellent offense, OSU is receiving strong consideration for our top 2017 "Go With" team.

You don't have to like the NBA or baseball, or even watch the games, but if **you could use an extra \$5,000 to \$10,000** this month, it's a **no-brainer to invest \$500** and get the selections that made our **\$100 bettors nearly \$9,000** in April.
